

Contemporary & Creative Book Shelves

by Admin on August 29th 2010

Designed by Studio Smeets located in Amsterdam, Lili Lite bookshelf is an excellent combination of reading lamp, bookmark and bookshelf. The major perk and most interesting part of this multifunctional bookshelf is that the light will switch off automatically when books are placed on the rack....Designer website: <http://www.lililite.com>

Joy rotating shelf unit: Designed by Achille Castiglioni and inspired by its smaller sibling Basello, joy rotating bookshelf has a versatility that can be claimed by very few shelving units. Seven shelves are gathered in an exchangeable structure that can rest flat against the wall. Joy rotating shelf unit feature steel reinforcing inside, finished finely in bleached oak and with scratch resistant embossing colors, the uprights and shelves are constructed with honey core....Designer website: <http://www.achillecastiglioni.it/>

Cave Pet Bookcase: Being inspired by the Cave bookcase, designed by Japanese designer Sakura Adachi, Cave pet book house is a combination of bookshelf and the reader's nook. Cave pet bookcase is a brilliant invention for pet dogs and cats alike as well as for pet owners and animal lovers who are worried about defensive behavior of pets. Cave pet bookcase provides space for books as well as private place for your pet and it can be easily placed against the wall....Designer: Sakura Adachi

Odersoding Modular Shelf System: Odersoding is a modular shelf system consisting of a single module. Geometry of the base module and making of the edges provides the possibility of multi-dimensionally amendable and extremely changeable assembly as well. The impression of the furniture varies according to the way of assembly. Designer website: <http://www.ding3000.com>

Corner Tree Book Shelf: The tree like book shelf, designed by Abhinav Dapke, will definitely change your perspective on common book shelf. The corner book shelf tree can be placed at any corner of your room. The bookshelf shares adjacent vertical faces of the walls. The zigzag fluid form of the design creates a look and interpretation the growth of tree....Designer: Abhinav Dapke

Billy Brother Book Shelf: A combination of both sculpture and book shelf, Billy Brother Book Shelf creates an interesting expression and playful meeting between floor and wall. The base part of the bookshelf is slanted to give a strange look to the book shelf. Billy brother book shelf is perfectly suitable for large spaces from lofts to segment spaces. The wavy design of the book shelf creates an impression and optical illusion that the shelves will spill their content.....Designer website: <http://www.addi.se>

The Giralot: If you are looking for something that doesn't occupy much space and hold sufficient items, Giralot storage system is the perfect choice. Being a part of Stefano Bettio 2008 collection, the Giralot is one of the most handsome and contemporary designs in storage shelves. With its unique swivel system, the Giralot storage system incorporates a minimalistic design as well as the maximum storage space. The complete storage system is based on a

container-like shelf that swivel 180 degrees on a column that is fixed to wall and rests on the floor.....Designer website: <http://www.stefanobettio.com>

Dimensional Shelves: Designed by Nicola Zanetti, the dimensional shelf is a steel storage system that comes in a combination of cool 60’s mod along with a touch of modern design. Dimensional Shelves are incredibly thin for adding stunning looks or for creating a more formal environment in your room, you can install a staggered formation that would defy the amount of weight they can actually carry....Designer website: <http://www.icondesignstudio.it/>

Laica Bookshelf: Laica bookshelf is a creative book storage design from designer Francesco Innocenti. This particular book shelf design is something that many of you might have never seen before and it would certainly impress everyone at first glance. With a finished touch of glossy lacquer or soft touch effect, Laica bookshelf can be a good decoration when not in use. However, if you have so many books to store then Laica book shelf is not for you, it is just only for books that you read daily....Designer website: <http://www.zerogloss.it/>

Bibliotheque Tree Bookshelf: Designed by Francesco Passaniti Atelier from Compact Concrete, the top image is a bookshelf called ‘Bibliotheque Tree’ and the chairs are called ‘Chaises Cedille’....Designer website: <http://www.compactconcrete.com>

Alog Bookshelf: Featuring a wall mounted modular block and easily detachable shelves, Alog bookshelf is a modular shelving system made from ash and MDF. The excellent design of the bookshelf allows you to place them in various compositions and combinations of shelves.
